## HEARTCRAFT | SPARKLING WHITE | CALIFORNIA

Remaining true to our Italian roots, we practice Metodo Italiano to craft our sparkling wines. Invented in 1895 in Asti by Federico Martinotti, widely known as the Charmat Method, we add a liqueur de tirage (mixture of sugar and yeast) to our still wine in a sealed tank. This induces a second fermentation with CO<sub>2</sub>. We fine the wine afterwards and add the dosage (mixture of sugar and wine). The final wine is immediately bottled under pressure to preserve its sparkling, fresh, fruity characteristics.

Crafted in small batches from a tight-knit crew of tantalizing white varietals and Pinot Noir, this Sparkling White dazzles with toasted brioche, caramel, and pear aromas. By using the Charmat Method (Metodo Italiano), we are able to invoke exceptional minerality that dances on the palate amidst green apple, hazelnut, and crème brûlée flavors. Savoring this sassy gem will spark joy at any table.
