CABERNET SAUVIGNON

NAPA VALLEY

Grape Source: 100% of the grapes were sourced from premium vineyards throughout the Napa Valley.

Vinification Process: The 2022 vintage was marked by extreme weather with high heat and unexpected rain, leading to an early harvest and concentrated flavors due to some grape dehydration. This vintage, called "the tale of two harvests", is considered to be one of the more unique vintages in recent history due to the unusual weather events. These events are expected to showcase a full range of flavors, from crisp and vibrant to dense and powerful. The harvest date for Cabernet Sauvignon was October 18, 2022.

Fermentation Method: Utilized premium selective yeast and malolactic bacteria, with both primary and malolactic fermentation completed in stainless steel tanks.

Flavor Profile: The Cabernet Sauvignon contributes an herbal character and robust mid-palate tannins, finishing with an elegant oak influence after 20 months of aging in 80% French oak and 20% American oak barrels, with a mix of medium and medium-plus toast levels, excluding toasted heads.
